

Human Resources & Careers

If you are looking for a position with perspective and recognition, then you will feel appreciated and accepted here.

The appreciation of your work is a fundamental aspect of our company culture. This is how we can work together successfully and offer the people of our houses a life in dignity. Satisfied inhabitants are the daily incentive of our work and at the same time the praise that is good for us.

In order to reward your work with monetary benefits, we work with a corporate bonus card, which you can use in shops. In our network of many locations, you have the opportunity for personal development. Your goals and training are important to us and are taken seriously in the context of personnel development. We also support this by providing professional journals and press in the residencies.

If you feel like you can be part of our company, we are looking forward to your application - either for a job opening or as an unsolicited application.
