

What the Residenz Atrium am Wall offers you

The residence Atrium am Wall is idyllically located close to the Wildeshausener Stadtpark and the city centre. Doctors, pharmacy, post office, railway station and bank can be reached quickly and easily on foot. The proximity to the park is ideal for short and long walks - whether on foot or by wheelchair. The park offers a fantastic landscape with a view of the lake and the small copses.

At the residence, we offer full-time care and short-term / holiday care on a professional level. We combine proven nursing principles with state-of-the-art scientific knowledge from medicine and employee management in order to ensure the optimal care for our residents. In doing so, we live our principle of providing each person with individual care and of preserving her or his self-determination for as long as possible.

On four floors, 31 bright single and 16 two-room apartments with private bathroom and kitchen and partly balcony offer you comfortable living in the Atrium am Wall. Seven of the two-room apartments can even accommodate spouses. All apartments are equipped with a chest of drawers, a table, two chairs, a wardrobe, an electric nursing home and a nightstand, as well as a cable TV and telephone connection and an emergency call system. You can bring your own furniture and furnish your apartment according to your taste. To protect your privacy, which we consider to be very important, you will receive your own key upon request.

On each of the four floors is a common room, which allows social interactions and eating together. The patio with its water games, the cosy cafeteria as well as the hospitable club room invite the residents and also the visitors to be comfortable. In the common areas you can use TVs and music equipment. Individual parties can be organized in our house.

The Atrium am Wall offers a wealth of leisure activities. From the weekly small talk ("Klönschnack"), to handicrafts, memory training and singing lessons, to readings, trips to the surrounding areas and hours of common celebrations during which we celebrate the festivities in a nice ambience. For example, we also celebrate the Oktoberfest.
